We are committed to improving the quality of life of the communities we serve. We do this by striving for leadership and global competitiveness in the business sectors in which we operate.

Casement Windows

Casement windows are one of the most popular options when it comes to window frames as they provide lot of customization choices and are also known for their usability and ease of access. ZENSTER uPVC Windows range includes Single Sash Casement Outward Windows, Single Sash Casement Inward Windows, Double Sash Casement Outward Windows and Double Sash Casement Inward Windows.

Sliding Windows

Sliding windows consist of sashes that open horizontally while providing you with the best cross ventilation option for your house. With ZENSTER uPVC sliding windows you will get the best of style, function and durability all in one product.

Arch Windows

Arch Windows are having Arch Shape and can be done with a combination of casement window or two sash sliding window or with Fix window combination

Top Hung Windows

Top Hung Windows feature movable panels which can be opened vertically Diagonal outward or inward. While traditional windows are heavy and hard to operate, ZENSTER Windows technology makes them light and durable so that they can be easily opened without any problem.

Tilt & Turn Windows

Tilt & Turn Windows are smart windows which features a sash that can tilt open at an angle from the top with hinges at the bottom or swing inwards with hinges on the side

Casement Doors

Casement Doors feature Single or Double Sash which opens inward or outward can be done in combination with Fix Partition or along with sliding Doors.

Sliding Doors

Sliding Doors operates like bigger windows and consists of Sashes that move horizontally and can be customized along with many different combinations.

Fold & Slide Doors (Bi-fold Doors)

Fold and Slide Doors joins multiple sashes in a smart slide and fold mechanism. The sashes move in either direction (left or right) and can be stacked at either end. It can open from wall to wall for maximum unobstructed opening to the outside, or open partly for ventilation and access. These door systems are very good for Balconies, in room Partitions etc to give multiple benefits.

Termite Proof

Wooden Window & Doors get damaged by Termite Invasion and swell up in monsoons.

Wind Load

ZENSTER uPVC Door & Windows can withstand storms with wind pressure of over 3000 Pascal which is equivalent to a speed of 245 km/hr.

Sensibly Green

ZENSTER doors and windows are a superior option to wood and aluminium. Positive insulation reduces the carbon footprint of the building.

UV Resistant

ZENSTER doors and windows systems are capable of protecting from high UV index.

Weather Resistant

Built with engineering precision. ZENSTER's product range when installed in accordance with known installation guidelines like BS8213-4 will provide the perfect barrier against the elements.

Energy Efficient

When it comes to thermal properties. uPVC is an excellent proposition for fenestration solution due to its inherent warmth.

Sound Insulation

ZENSTER uPVC Door & window systems utilize a multi-chambered profile design with double seal technology that ensures excellent insulation against sound infiltration.

Self Extinguishing

uPVC is difficult to ignite, if ignited and the source of flame is taken away, uPVC self extinguishes. uPVC will not support combustion and will not spread the fire on its own.

Made with German Technology

Climate Friendly

Safe Place for you

Value for Money

- Higher Thermal Insulation
- All-weather Insulation
- Higher Acoustic / Sound Insulation (insulates up to 40 db, sound insulation Class 5, as per DIN 4109).
- Maximum Wind Insulation (wind pressure of 2400PA Tests specified in BS (British Standard) 5368, Part 3).
- Maximum Water Tightness
- Fire Resistance (Class 1 fire resistance as defined in BS 476: part 7)
- Higher Durability (Over 30 Years)
- Stability against UV
- Energy Efficient (Saves up to 30% of energy requirement)
- Impact Resistant
- Premium Aesthetics
- Eco / Environment Friendly (completely recyclable)
- Higher Safety and Security Mechanism
- Drainage System
- Customized as per requirement.

MAXIMUM VIEW & NATURAL LIGHT "LESS IS MORE" LESS VISIBLE
TRACK AND FRAMES MORE VIEW AND SPACE IS ENHANCED.
